On the upper floor there are two large en-suite bedrooms with dressing rooms and terraces, and in the middle of them there is an office area with a large window, glass ceiling and spectacular views of the garden and the living room of the house.

In the basement, we find a large living room with open kitchen, very bright thanks to the English patio, with two bedrooms en suite, all very nice and comfortable. There are also storage, laundry, technical rooms and machine room.

The super garage has space for at least 6 vehicles.

It is a spectacle of a house, for its distribution, ambiances and the height that provides so much luminosity to the living room and bedrooms, and for the details and qualities.
